DETAILED ACTION

1. This application has been examined. Informational disclosure statements (s) filed December 17, 2003, and October 15, 2004, have been considered. Claims 1-13 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Anthony. Note the adapter 30 threadably and reciprocally mounted to allow adjustment of the escutcheon 22 relative wall D. A mixing valve A is shown.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 3753

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

6. Claims 12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anthony. It would have been obvious to one of ordinary skill in the art to adjust the position of the escutcheon 22 by the recited method steps.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Allowable Subject Matter

Claims 9-11 are allowed. Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
